

# Extension Lead Stand: PSLST1

Lead stands are an essential tool for site safety; designed to elevate extension leads to ensure sufficient height clearance for personnel and vehicles.

The lead stand hooks are non conductive and covered with a protective plastic coating to avoid abrasion and cuts to leads. Capable of safely holding up to 5 leads at one time in any direction.

The tripod is easily adjustable to ensure stability on uneven ground and supported by an included sandbag.

## KEY FEATURES

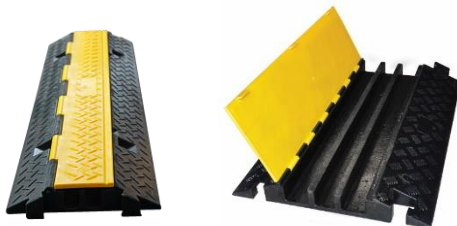

- Adjustable height from 1.5 to 2.5 metres
- Adjustable tripod base for stability on uneven ground
- Safety Yellow
- Tripod base is easily disassembled for storage and transport
- Hooks are non conductive and can hold a minimum of 5 leads
- Plastic coated contact points for leads eliminating abrasions and cuts to leads
- Comes complete with sandbag for additional stability
